CVR-no. 36 21 37 28

Conversion of Studstrup Power Station is postponed

DONG Energy postpones the previously announced conversion of unit 3 of Studstrup Power Station to enable the CHP plant to use wood pellets instead of coal. The postponement is due to the fact that the legal framework covering the fee for reliability of supply on biomass is not yet in place.

The conversion is expected to be resumed when the legal framework covering fee for reliability of supply on biomass is available.

28 May 2013

The content of this company announcement does not affect DONG Energy's previously announced expectations to the financial result for the financial year 2013 or the expected investment level for 2013-2014.
