

**News release from  
Vestas Central Europe**

Hamburg, 14 March 2017

## **Vestas receives order for 31 MW of V136-3.45 MW turbines in southern Germany**

*Uhl Windkraft Projektierung GmbH & Co. KG orders nine V136-3.45 MW with Large Diameter Steel Towers (LDST) for the Kohlenstraße wind power plant in Baden-Württemberg*

The firm and unconditional order includes supply and commissioning of the wind turbines as well as a 15-year Active Output Management 4000 (AOM4000) service agreement and a VestasOnline® SCADA solution. Wind turbine delivery and commissioning is expected to be finalised in the second half of 2017.

*“Working with Vestas on the Kohlenstraße wind park feels like a secure and natural choice. Vestas’ support and flexibility during the development of the project, the performance of the V136-3.45 MW, and the service solution offering optimal performance are the main reasons behind our decision to once again rely on Vestas as our partner on wind energy solutions”, Franz Uhl, Managing Director at Uhl Windkraft Projektierung GmbH & Co. KG.*

Nils de Baar, President of Vestas Central Europe states: *“This order is the result of our intensified partnership with Uhl Windkraft Projektierung GmbH & Co. KG and the V136-3.45 MW turbine’s competitiveness in Germany. By using our Large Diameter Steel Tower (LDST) the site will feature hub heights of 149m to maximise energy output in low-wind conditions, highlighting how Vestas is raising the bar for low-wind site performance.”*

**About Vestas**

Vestas is the energy industry’s global partner on wind power solutions. We design, manufacture, install, and service wind turbines across the globe, and with close to 82 GW of wind turbines in 76 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 71 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas’ more than 21,800 employees are bringing the world sustainable energy solutions to power a bright future.

The headquarters of Vestas Central Europe is located in Hamburg, Germany. The business unit is responsible for the sales and marketing of wind power systems as well as for the installation and operation of wind power plants in Germany, Benelux, Austria, Russia, Eastern Europe and Southern and Eastern Africa.

Vestas entered the German market in 1986. Since then, the company has delivered close to 7,600 turbines representing a total capacity of 12.1 GW to this key market. Vestas' full wind energy value chain is represented in Germany; R&D, production, sales locations and a unique service infrastructure as well as business unit headquarters. Vestas employs around 2,400 people in Germany.
