

UPGRADE OF COPENHAGEN-OSLO ROUTE IN 2014

The Copenhagen-Oslo route connects two Nordic capitals and annually attracts more than 700,000 passengers. The route also transports more than 200,000 lanemetres of freight per year.

To enhance the route's customer offerings, the two ships deployed on the route will be upgraded at a total cost of DKK 120m in early 2014. The upgrade is mainly directed at onboard passenger areas, ie. public areas and cabins, but also includes a technical upgrade of the ships.

The upgrade is expected to support the ships' continued deployment on the route for at least the next five years.
