CHAIRMAN OF THE BOARD

II PRINCIPLES OF GOOD CORPORATE GOVERNANCE

SHAREHOLDERS' MEETING

Shareholders realize their right to participate in the management of the Issuer at shareholders' meetings. In compliance with legal acts the Issuers shall call the annual shareholders' meeting as minimum once a year. Extraordinary shareholders' meetings shall be called as required.

1. Ensuring shareholders' rights and participation at shareholders' meetings

The Issuers shall ensure equal attitude towards all the shareholders – holders of one category of shares. All shareholders shall have equal rights to participate in the management of the Issuer – to participate at shareholders' meetings and receive information that shareholders need in order to make decisions.

1.1. It shall be important to ensure that all the holders of shares of one category have also equal rights, including the right to receive a share of the Issuer's profit as dividends or in another way in proportion to the number of the shares owned by them if such right is stipulated for the shares owned by them.

- *This principle is observed by LAP. A decision on the application of profit is to be made by the shareholder meeting.*

1.2. The Issuer shall prepare a policy for the division of profit. In the preparation of the policy, it is recommended to take into account not only the provision of immediate benefit for the Issuer's shareholders by paying dividends to them but also the expediency of profit reinvesting, which would increase the value of the Issuer in future. It is recommended to discuss the policy of profit division at a shareholders' meeting thus ensuring that as possibly larger a number of shareholders have the possibility to acquaint themselves with it and to express their opinion on it. The Report shall specify where the Issuer's profit distribution policy is made available.

- *LAP explains the Board and the Council of LAP were not received any proposals on the profit application policy made by the shareholders. Governing institutions of LAP have not made any decision on the policy development. The shareholder meeting of LAP solely shall be eligible to make the decision on application of the previous business year profit. The Board of LAP shall be obligated to prepare and submit the project on profit share to the Council for approval before the acceptance in the shareholder meeting; the project shall be seen for all the shareholders in the published draft plans of decisions prior to the meeting. Shareholders have an opportunity to express their opinion on the issue.*

The decision on finance earned in 2013 shall be made at the shareholder meeting which is planned to be held on 03 June 2014.

1.3. In order to protect the Issuer's shareholders' interest to a sufficient extent, not only the Issuers but also any other persons who in compliance with the procedure stipulated in legislative acts call, announce and organize a shareholders' meeting are asked to comply with all the issues referred to in these Recommendations in relation to calling shareholders' meetings and provision of shareholders with the required information.

- *This principle is observed by LAP. The LAP shareholder meetings is to be called by the Board of LAP, which ensured that the calls, announcements, and organization of the shareholder meetings in 2013 were in accordance with the law and the Statutes of LAP.*

1.4.Shareholders of the Issuers shall be provided with the possibility to receive in due time and regularly all the required information on the relevant Issuer, participate at meetings and vote on agenda issues. The Issuers shall carry out all the possible activities to achieve that as many as possible shareholders participate at meetings; therefore, the time and place of a meeting should not restrict the attendance of a meeting by shareholders. Therefore, it should not be admissible to change the time and place of an announced shareholders' meeting shortly before the meeting, which thus would hinder or even make it impossible for shareholders to attend the meeting.

- *This principle is observed by LAP. The most significant information on the Enterprise is to be seen by the shareholders on the Stock Exchange home page as well as on the LAP home page. The Enterprise has not created the aforementioned obstacles for the shareholders participation at the meeting.*

1.5.The Issuers shall inform their shareholders on calling a shareholders' meeting by publishing a notice in compliance with the procedure and the time limits set forth in legislative acts. The Issuers are asked to announce the shareholders' meeting as soon as the decision on calling the shareholders' meeting has been taken; in particular, this condition applies to extraordinary shareholders' meetings. The information on calling a shareholders' meeting shall be published also on the Issuer's website on the Internet, where it should be published also at least in one foreign language. It is recommended to use the English language as the said other language so that the website could be used also by foreign investors. When publishing information on calling a shareholders' meeting, also the initiator of calling the meeting shall be specified.

- *This principle is observed by LAP. The regular shareholder meeting held on 15 May 2013 was announced in order and terms set in the legal acts. The information was also available on the LAP home page in both the English and Latvian language. The initiator for a call of meeting was the Board. No extraordinary shareholder meetings were held in 2013.*

1.6.The Issuer shall ensure that complete information on the course and time of the meeting, the voting on decisions to be adopted , as well as the agenda and draft decisions on which it is planned to vote at the meeting is available in due time to the shareholders. The Issuers shall also inform the shareholders whom they can address to receive answers to any questions on the arrangements for the shareholders' meeting and the agenda issues and ensure that the required additional information is provided to the shareholders.

1.7.The Issuer shall ensure that at least 14 (fourteen) days prior to the meeting the shareholders have the possibility to acquaint themselves with the draft decisions on the issues to be dealt with at the meeting, including those that have been submitted additionally already after the announcement on calling the meeting. The Issuer shall ensure the possibility to read a complete text of draft decisions, especially if they apply to voting on amendments to the Issuer's statutes, election of the Issuer's officials, determination of their remuneration, division of the Issuer's profit and other issues.

- *This principle is observed by LAP. The draft plans for the decisions of shareholder meetings were publicly available.*

1.8. In no way may the Issuers restrict the right of shareholders to nominate representatives of the shareholders for council elections. The candidates to the council and candidates to other offices shall be nominated in due time so that the information on the said persons would be available to the shareholders to the extent as stipulated in Clause 1.9 of this Section as minimum 14 (fourteen) days prior to the shareholders meeting.

- *This principle is observed by LAP.*

1.10. The Issuer may not restrict the right of shareholders to consult among them during a shareholders' meeting if it is required in order to adopt a decision or to make clear some issue.

- *This principle is observed by LAP. No limitations were made for the mutual communication of the shareholders at the meetings.*

1.11. To provide shareholders with complete information on the course of the shareholders' meeting, the Issuer shall prepare the regulations on the course of shareholders' meeting, in which the agenda of shareholders' meeting and the procedure for solving any organizational issues connected with the shareholders' meeting (e.g., registration of meeting participants, the procedure for the adoption of decisions on the issues to be dealt with at the meeting, the Issuer's actions in case any of the issues on the agenda is not dealt with, if it is impossible to adopt a decision etc.). The procedures adopted by the Issuer in relation to participation in voting shall be easy to implement.

- *This principle is observed by LAP. The course of the LAP shareholder meeting is to be set within the government regulations of the Republic of Latvia and the Statutes of LAP. The Board ensures the organization and work of the shareholder meeting; it defines the order of course of the shareholder meeting individually, depending on agenda. The voting procedure is not difficult in application.*

1.12. The Issuer shall ensure that during the shareholders' meeting the shareholders have the possibility to ask questions to the candidates to be elected at the shareholders' meeting and other attending representatives of the Issuer. The Issuer shall have the right to set reasonable restrictions on questions, for example, excluding the possibility that one shareholder uses up the total time provided for asking of questions and setting a time limit of speeches.

- *This principle is observed by LAP. The shareholders are free to express their opinion and ask questions at the shareholder meetings. The time limit is set for both discussions of the issues included in the agenda and speeches, as well as debates and one person's speech.*

- 1.13. When entering the course and contents of discussions on the agenda issues to be dealt with at the shareholders' meeting in the minutes of shareholders' meeting, the chairperson of the meeting shall ensure that, in case any meeting participant requires it, particular debates are reflected in the minutes or that shareholder proposal or questions are appended thereto in written form.

REMUNERATION POLICY

13. General principles, types and criteria for setting remuneration

The policy of the remuneration of board and council members – type, structure and amount of remuneration - is one of the spheres where persons involved has a potentially greater risk to find themselves in an interest conflict situation. To avoid it, the Issuer shall develop a clear remuneration policy, specifying general principles, types and criteria for the remuneration to be awarded to the board or council members.

13.1 The Issuers are called on to develop a remuneration policy in which the main principles for setting the remuneration, possible remuneration schemes and other essential related

issues are determined. While preparing the remuneration policy Issuer should ensure that the remuneration of management and supervisory board members is proportionate to the remuneration of the Issuer's executive and managing directors and other employees.

- *This principle is observed by LAP. Salary policy is developed by the Board and then submitted to the Council of Enterprise for acceptance. This information is not published.*

13.2 Without limiting the role and operations of the Issuer's management bodies responsible for setting remuneration to the board and council members, the drafting of the remuneration policy should be made a responsibility of the Issuer's board, which during the preparation of a draft policy should consult with the Issuer's council. In order to avoid conflicts of interest and to monitor the management board remuneration policy, the Issuer should appoint a responsible person having sufficient experience and knowledge in the field of remuneration for development of the remuneration policy.

- *LAP explains that no project for the salary policy was developed.*

13.3 Should the remuneration policy contain a remuneration structure with a variable part in the form of the Issuer's shares or share options or any other payments, including premiums, it should be linked to previously defined short-term and long-term goals and performance criteria. If remuneration depends on fulfillment of short-term goals only, it is not likely to encourage an interest in the company's growth and improved performance in the long-term. The scope and structure of the remuneration should depend on the business performance of the company, share price and other Issuer's events.

- *LAP explains that no shares options or shares as a variable salary component was intended for its salary policy. If the JSC "Liepājas autobusu parks" will intend to include the enterprise shares as the variable salary component in the salary policy, this principle will definitely be taken into consideration.*

13.4 While setting the variable part of remuneration, Issuer should set limits on the variable component(s). The non-variable part of remuneration should be sufficient to allow the Issuer to withhold variable part of remuneration when necessary.

- *LAP explains that no variable salary component was anticipated, int. al. additional payments, premiums, shares or shares options.*

13.5 Where a variable part of remuneration provides Issuer's shares, share options or any other acquisition rights thereof, it should be desirable to prescribe a minimum non-used period of time.

- *LAP explains that no variable salary component was anticipated, int. al. additional payments, premiums, shares or shares options.*

13.6 Remuneration policy should include provisions that permit the Issuer to reclaim variable part of remuneration that were awarded on the basis of data which subsequently proved to be manifestly misstated. Such provision should be included in contracts concluded between the respective executives and the Issuer.

- *LAP explains that no variable salary component was anticipated, int. al. additional payments, premiums, shares or shares options.*

13.7 Remuneration schemes that include Issuer's shares as remuneration may theoretically cause loss to the Issuer's existing shareholders because the share price might drop due to a new issue of shares. Therefore, prior to the preparation and approval of this type of remuneration, it shall be required to assess the possible benefits or losses.

- *LAP explains that no variable salary component was anticipated, int. al. additional payments, premiums, shares or shares options.*

13.8 When preparing the remuneration policy where a variable part is in the form of the Issuer's shares or share options, the Issuer shall be obliged to disclose information on how the Issuer plans to ensure the amount of shares to be granted in compliance with the approved remuneration schemes– whether it is planned to obtain them by buying on a regulated market or by issuing new shares.

- *LAP explains that no variable salary component was anticipated, int. al. additional payments, premiums, shares or shares options.*

13.9 While drafting the remuneration policy and envisaging awarding options entitling to the Issuer's shares, the Stock Exchange rules regarding distribution of share options should be taken into account.

- *LAP explains that no variable salary component was anticipated, int. al. additional payments, premiums, shares or shares options.*

13.10 While setting remuneration principles with regard to board and council members, they should include general approach as to compensations, if any, in cases when contracts with the said officials are terminated (termination payments). Termination payments should not be paid if the termination is due to inadequate performance.

- *LAP explains that no compensations are anticipated for the members of the Board and the Council in case of termination of the contract, except of those set by the Labour Law.*

13.11 It is recommended to set an adequate maximum amount of the termination payments which should not be higher than two years of the non-variable part of remuneration.

- *LAP explains that the maximum amount payable in case of the labour relations termination cannot exceed norms set by the Labour Law (a sum of the invariable compensation amount of 1 to 2 months).*

14. Remuneration Report

A clear and complete report on the remuneration policy with regard to the management body members of the Issuer should be made available to the shareholders. Public disclosure of the said information would allow the existing and potential shareholders to carry out a comprehensive evaluation of the Issuer's approach the remuneration issues; consequently, the Issuer's responsible body shall draft and made public the Remuneration Report.

14.1 The Issuer is obliged to make public the Remuneration Report – a complete report on the remuneration policy applied to the members of the Issuer's management bodies. Remuneration Report may be a separate document, or may integrated in a special chapter

of the Report prepared by the Issuer as recommended by Item 9 of the Introduction of the present Recommendations. The Remuneration Report should be posted on the Issuers website.

- *LAP explains that the salary policy is developed by the Board, submitting it for acceptance to the Council of Enterprise. The information regarding the salary policy is not published.*

14.2 Remuneration Report should contain at least the following information:

1) Information as to the application of the remuneration policy to board and council members in the previous financial year, specifying the material changes to the Issuer's remuneration policy compared to the previous reporting period;

4) Information about the Issuer's policy with regard to the contracts with the members of the Issuer's management bodies, the terms and conditions of the contracts (duration, notice deadlines about termination, including payments due in case of termination);

- *LAP explains that no payments are intended for the members of the Board and the Council in case of the contract termination.*

5) Information about the incentive schemes and the specifications and reasons for awarding any other benefits;

- *LAP explains that no premium scheme was intended for the salary policy in 2013.*

6) A description of any pension or early retirement schemes;

In such case, Remuneration Report should have a reference to the Remuneration Policy, together with an indication where it is made available.

14.4 If the Issuer believes that, as a result of following the provisions of Item 14.2 of these Recommendations sensitive business information might become public to the detriment of the Issuer's strategic position, the Issuer may not disclose such information and give the reasons.
