Mortgage loans at fair value relative to estimated property value - capital centre 2	8
LTV owner occupied dwellings - capital centres 1 and 2	9-10
Disclaimer	11

LTV Calculations

- The loan to value ratio is calculated for each loan
- The loan to value ratio is calculated as the prior deeds plus the loan at fair value relative to the market value of the property
- $LTV = (\text{prior deeds} + \text{loan at fair value}) / \text{market value of property}$
- $LTV (\text{Median}) = (LTV + (\text{prior deeds} / \text{market value of property})) / 2$
- The average LTV is weighted by the fair value of the loan
- The median LTV is weighted by the fair value of the loan
- Property values are updated with price developments of the 1st quarter 2014
- Entire loan entered under the top LTV bracket: If e.g. the fair value is DKK 810,000. There are no prior deeds and the market value of the property is DKK 1,000,000. The LTV ratio is 81%. The entire loan is entered in the interval above 80 regardless that only DKK 10,000 is above 80% of the property value

Capital centres

- Nordea Kredit offers RO funded loans in Capital centre 1 (90% of the bonds in the centre are grandfathered covered bonds)
- Nordea Kredit offers SDRO funded loans in Capital centre 2 (all of which are covered bonds)
- Supplementary security is provided if the LTV ratios of the individual loans exceed the LTV limit stipulated by the law

Monitoring property values

- Loan to value ratios are monitored on an ongoing basis based on current market values of the property and the fair value of the bonds funding the loans (outstanding debt of the individual borrowers)
- For the purpose of the ongoing monitoring of property values, statistical models approved by the Danish FSA are applied
- The statistical models are applied to detached houses, owner occupied flats and holiday homes
- Commercial and agricultural properties are being monitored by a statistical approach
- Properties with high loan to value ratios which have experienced significant price reductions since the latest valuation of the property will be reviewed by a surveyor
- The criteria for the selection of properties for review are reviewed quarterly
- Quarterly stress tests and sensitivity analyses to forecast the capital requirement as a consequence of the expected price developments for different property categories
